

As a premier HME provider to Hospice organizations, BHC has developed an interactive system that is easy to use and provides intuitive solutions for equipment ordering.

Designed with direct feedback and input from administrators and clinicians who serve Hospice customers everyday, we are pleased to introduce Hospice Connect: the intersection of technology and service.

Product visuals with descriptions to make equipment choices easy and clear

ADVANTAGES

Quick, efficient and accurate ordering

Review BHC equipment currently with patients, including pending orders

Delivery or pick up requests each have access to delivery notes or special instructions for enhanced communication

Easy mobile access from any location

Generate comprehensive reporting
